Sequelize

MongoDB

Mongoose

UiPath

Photoshop

Illustrator

PROJECTS

Spell Checkers   **Dec 2020**
HTML, Javascript, Canvas
A browser-based video game built entirely in front-end using Canvas. Spell Checkers is a typing game/dungeon crawler crossover, utilizing random generation, particle physics, and custom self-made graphics.

PotLucky!   **Jan 2021**
Javascript, Node, Express, SQL, Mapbox, Socket.io
A community-kitchen app that uses Axios and Mapbox API geocoding to find food donation requests in the area, connecting users through in-app direct messaging to coordinate drop-offs.

Skyfarer   **Mar 2021**
Javascript, Node, React, MongoDB, Socket.io
A real-time chat where users can play the TTRPG system Skyfarer. A custom-made text parser allows users to roll dice and take action, while Socket communicates their information across all connected players.

EXPERIENCE

RPA Developer Intern   **Jan 2020 - Oct 2020**
Delta General Insurance   Houston, TX

Customer Service Representative   **Sep 2018 - Oct 2019**
Tobin Center for the Performing Arts   San Antonio, TX

EDUCATION

Software Engineering Immersive Program   **Dec 2020 - Mar 2021**
General Assembly, Remote

Bachelor of Arts Degree in English   **May 2018**
University of Houston, Houston, TX
